Fusion Z-7799

Dear customer

Finally arrived at YA! Take a seat and enjoy the world of YA! You will see: It is a wonderful place to be.

The appliance must only be used for the intended purpose according to these instructions.

Keep the instructions carefully and pass them on to further users.

The manufacturer reserves the right to change design, accessories or equipment without prior notice.

EN

Safety instructions

Carefully read the instructions before use. Keep the instructions, if you need to read it again or if you want to pass on the appliance.

- The appliance must only be connected to a voltage supply in accordance with the rating label on the supplied adapter. Voltage supply information to be found on the label of the adapter.
- This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety. Children should be supervised to ensure that they do not play with the appliance.
- Do not allow power cable to hang down within easy reach.
- Keep children away from packing material (e.g. plastic bags).
- Disconnect the mains plug in case of faults during use, before cleaning or moving the appliance from place to place, after use.
- Never pull the plug out of the socket by the cable or with wet hands. Don't pull the cable over sharp edges. Don't jam it. Don't bend it.
- If the supply cable is damaged, it must be replaced by the manufacturer or its service agent or similarly qualified person in order to avoid hazard.
- Regularly check if the mains cable / appliance / extension lead is defective.
- Only trained personnel should repair electrical appliances. Unskilled repairs can cause considerable danger to the user.
- Do not use attachments not recommended by the manufacturer.
- Never put the appliance / cable on hot surfaces or near open flames.

Safety instructions

- Never subject the appliance, power cable or plug to moisture, water or any other liquid.
- Never attempt to open the casing of the appliance.
- Position the appliance so that it has sufficient ventilation. Never block the ventilation openings. Ensure that no objects or liquids enter the ventilation openings.
- The equipment contains a laser radiating laser rays according to the limit of laser product of class 1.
- Batteries must not be exposed to excessive heat such as direct sunlight, fire and the like.
- If the battery leaks, remove it, clean the contacts of the appliance and wash your hands.
- If you do not use the appliance for a long time, remove the battery.
- Where the mains plug is used as the disconnect device, it shall remain readily operable.
- Listening with headphones for long periods at full volume may cause damage to the hearing.
- Switch the appliance off and pull the plug out of the mains when it is not in use. Don't pull the cable around the appliance. The appliance is only cut from the mains if the plug is pulled out!

WARNING: Do not use this appliance near bathtubs, showers, basins or other vessels containing water.

Safety instructions

Electrostatic precautions:

An electrostatic discharge at any point of the device can lead to a functional failure, or to turn off the device. This is an intentional response and serves to protect the equipment. If this happens, please unplug, wait several seconds and then plug the device back on line. Thus, the device is reset to its normal state.

WARNING

There is a danger of explosion if batteries are exchanged improperly. Only replace batteries with ones of the same type.

- Do not put any container (f. ex. vases, etc.) containing liquids on or in the surroundings of the appliance.
- Subject to technical modifications. No liability for typographical errors.

Key to symbols

WARNING

This symbol and WARNING heading is used when failure to follow or non compliancy with the operating and work instructions as well as with prescribed work procedures and the like, may cause injuries or fatal accidents.

CAUTION

This symbol and CAUTION heading is used when failure to follow or non compliancy with the operating and work instructions as well as with prescribed work procedures and the like, may cause damage to the appliance.

NOTE

This symbol and the heading NOTE apply to technical requirements that the user must pay attention to during the activities.

Proper use of the appliance

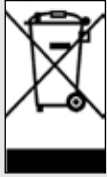

The appliance is designed for household use and not for industrial operation. Any other use is improper and could endanger persons.

EN

Improper use of the appliance

No warranty for any possible damage can be accepted if the appliance is improperly used, incorrectly operated or repaired unprofessionally. In such a case, any warranty claim is void.

Disposal of old electrical appliances

This product shall not be disposed off in the EC/Switzerland with the household waste. Before disposal, remove the battery. Make worn out appliances unusable. Pull out the mains plug and sever the cable. Return electrical appliances to a shop of sale or dispose of product and battery separately in accordance with local regulations. The crossed out “wheeled bin” symbol on the product reminds you of your obligation, that when you dispose of the appliance, it must be separately collected. Consumers should contact their local authority or retailer for information concerning the correct disposal of their old appliance.

Technical data

Power supply AC 100 V-240 V ~ 50/60 Hz

Power consumption Standby: 1 W
In operation: 52 W

Dimension Appliance: 410 x 178 x 175 mm without stand
Speaker: 270 x 178 x 175 mm without stand
Subwoofer: 220 x 240 x 240 mm
Docking station: 86 x 192 x 110 mm

Weight Appliance: 2.3 kg
Speaker: 2.3 kg
Subwoofer: 5.5 kg
Docking station: 0.34 kg

Speaker 28 W x 2 + 18 W x 2 + 35 W

Amplifier 10 W x 2 + 20 W = 40 W (RMS)

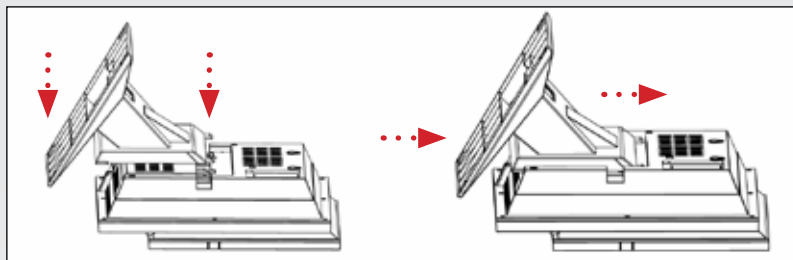

Protection Class 2

EN

Position the appliance

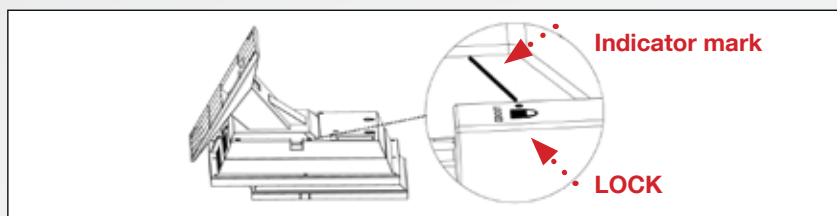

Attach stand (base and loudspeaker)

Place the stand under the unit and slide it forward

Stop when the indicator arrow mark is aligned with the mark at the unit.

(To release the stand press the clip and and slide the stand downwards)

Operation

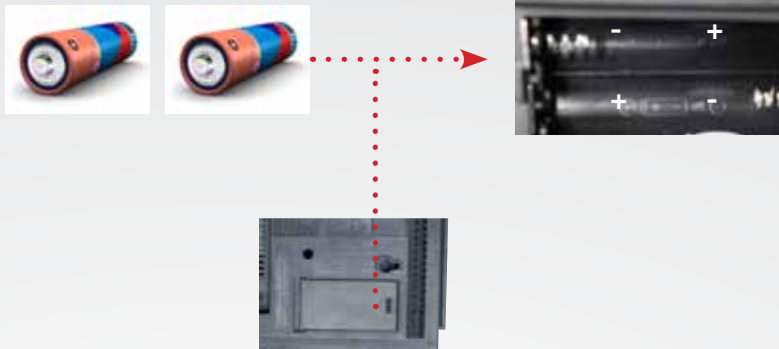

Insert backup batteries

The backup batteries save the wake-up function in the event that the power supply is interrupted.

Insert two 1.5 V batteries (AA/UM-4/LR03) (not included).

The remote control can only be used with batteries.

Insert 2 x 3 V, CR 2032 battery (included in the scope of delivery).

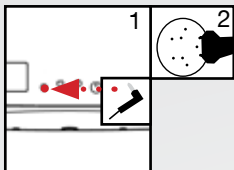

Operation

Operation of the appliance

The appliance is equipped with an AC adaptor, rating DC = 15 V, 3 A and a plug:

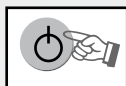

- Only connect the appliance with the supplied adaptor and mains supply.
Use of other adaptors may damage the unit or cause it to malfunction.
- 1. Plug the tail end of the AC-adaptor into the DC-jack (socket)
2. Connect the mains plus to the mains

- **ON / STANDBY** to switch on the appliance

Appliance

Remote control

- The appliance cannot be completely switched off. It is either in operation or in Standby mode.
- The display is dimmed in standby mode, time is displayed.
- Power consumption is reduced in standby mode.

Remote control

- Carefully remove the transparent plastic foil from the battery compartment and test if the appliance reacts on the remote control with **ON / STANDBY**

Operation

Wall installation

- This unit can be fastened to the wall.
- Screws: 3.5 x 34 mm (8 screws supplied)

WARNING

The unit may only be mounted on vertical walls. Check before installation whether the wall can bear three times the weight of the unit. Bring in a qualified craftsman if in doubt, and in any case to drill the holes.

Connections

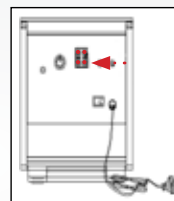

- The Fusion-Z 7799 Home Cinema System can be connected to normal household mains power sockets.
- Check that the power supply rating is adequate for the unit.
- Connect the mains plug of the unit and of the subwoofer to the mains power supply
- Switch on the unit and the subwoofer with **ON / OFF**.

Connect the loudspeaker to the subwoofer

- Release the connecting cable of both loudspeakers from the binding.
- Two cables per loudspeaker: 1 x WHITE (clear) and 1 x BLACK
- WHITE cable left-hand loudspeaker, connect with RED L+ to the subwoofer
- BLACK cable left-hand loudspeaker, connect with BLACK L- to the subwoofer
- Do the same with the right-hand loudspeaker: Connection to R + and R-
- To connect the cables; press the RED and BLACK knobs respectively against the subwoofer, connect the cable, release the knob
- Locate the loudspeakers in the room to give the best sound quality

Bass control subwoofer

- The bass can be set at any time at the back of the subwoofer with the Bass Level Control knob.

Connections

LIGHTCURRENT WIRELES AUDIO TECHNOLOGIE

The LIGHTCURRENT technology uses safe infrared light to connect without cables. The technology also functions over greater distances and eliminates errors in transmission at radio frequencies. The dock distributes uncompressed signals in all directions. These are reflected by walls, ceilings and even the device itself and thus always reach the 2.1 loudspeakers, regardless of where they are placed. They thus attain an incomparable quality of sound.

Set clock

The appliance is supplied with a digital clock. Time is displayed in two modes:

1. Standby mode Display shows actual time
2. ON mode The display does not show the current time.
Display: Press **CLOCK** on the remote control.

Choose display (12H/24H) UP ▲ resp. DOWN ▼

Confirm Press **CLOCK**

Set hour UP ▲ resp. DOWN ▼

Confirm Press **CLOCK**

Set minutes UP ▲ resp. DOWN ▼

Confirm Press **CLOCK**

NOTE If no key is pressed for 10 seconds, the appliance automatically returns to its initial function. The programming is not saved.

Set alarm

This appliance is supplied with a Timer function. It is used for programming to enable the appliance to shut off or on automatically. This function can be used as an alarm clock.

CAUTION The timer only works if the clock and the playback function (**DISC** / **USB** / **CARD** / **iPOD** / **TUNER FM**) have been set.

Press **TIMER** for 2 seconds

Set function	UP resp. DOWN (DISC / USB / CARD / iPOD / TUNER FM)
Confirm	Press TIMER
Set hour	UP ▲ resp. DOWN ▼
Confirm	Press TIMER
Set minutes	UP ▲ resp. DOWN ▼
Confirm	Press TIMER
Adjust volume	VOLUME + resp. VOLUME -
Confirm	Press TIMER

NOTE ☹ symbol on the display shows when the timer function is active. Press **TIMER** at the remote control to switch off the timer. ☹ Symbol disappears. If **TUNER FM** had been selected as a wake-up function, playback of the radio frequency that had last been selected starts.

SLEEP

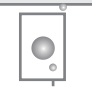

This appliance is supplied with a **SLEEP** function. You can use it to have the appliance automatically shut off. This function can be used for example to sleep in with music.

Set minutes

Press **SLEEP** repeatedly

(10 / 20 / 30 / 40 / 50 / 60 / 70 / 80 / 90 / OFF)

OFF = **SLEEP** function is off.

Musik Equalizer

This appliance has four pre-programmed sound adjustments.

Set EQ sound effects

Press **EQ** repeatedly

(EQ OFF / CLASSIC / ROCK / POP / JAZZ / BASS)

Setting the alarm (beep beep)

Switch off appliance

ON / STANDBY

Press **ALARM**

Set hour

UP ▲ resp. **DOWN ▼**

Confirm

Press **ALARM**

Set minutes

UP ▲ resp. **DOWN ▼**

Confirm

Press **ALARM**

MUTE

The volume of the appliance can be switched off temporarily.

Press **MUTE** Volume off

Press **MUTE** again Volume on

VOLUME

The volume can be adjusted either at the appliance or on the remote control. **VOLUME +** and **VOLUME -** - it is possible to hear a CLICK during the adjustment. The clicking stops once the desired loudness is achieved.
